_____ I have submitted a site plan indicating the location of all property lines, all existing and proposed buildings, the distances between all property lines and the closest wall of the nearest building, the location of all existing and proposed roads and a north arrow to establish orientation of the site plan.

_____ I hereby agree to comply with the Building Bylaw of the municipality and acknowledge that it is my responsibility to ensure compliance with the municipal zoning bylaw, provincial legislation, and the National Building Code of Canada regardless of any review of drawings or inspections that may or may not be carried out by an inspector.

_____ It is expressly understood that the municipality requires building inspections to be called for at various stages of construction, as outlined in the building bylaw, and that it is my responsibility to contact the municipal building inspector to ensure that building inspections are carried out at the required intervals. Failure to notify the municipal building inspector at the required intervals of construction may result in additional fees, the issuance of a stop work order, and/or other action outlined in the municipal building bylaw.

_____ I understand that this permit expires six months from the date of issue if work is not commenced within that period, or two years from the date on which the permit was issued,; and any deviation, omission or revision to the approved application requires approval of Council, or its authorized representative.

_____ I understand that additional inspection fees may be charged for extra inspections, non-scheduled inspections and re-inspections.

Is a Building Permit Required?

Building permits are usually required for:

- new building construction
- garages and carports
- decks
- RTM, modular or mobile homes
- renovation or alteration affecting structural or life safety (e.g. egress windows for bedrooms)
- addition to an existing building
- basement development in a dwelling
- secondary suites
- accessory buildings greater than 10 m²
- fireplaces, wood stoves and heaters
- retaining walls for structures
- foundation replacement
- change of use or occupancy
- temporary buildings or structures
- relocation of an existing building
- work to remedy an unsafe condition or fire official's order
- demolition of an existing building
- swimming pools and hot tubs (in locations that have applicable bylaws)

Building permits are not usually required for:

- fences
- driveways, sidewalks and parking lots
- replacement of materials (e.g. roofing, siding) or cosmetic upgrades (e.g. painting, flooring) not affecting structural or life safety
- accessory buildings (garden sheds, tool sheds) not greater than 10 m² in area (limit of one per property)
- swimming pools and hot tubs less than 600 mm in depth

When in doubt, ask a Building Official.

*** Please check your local building bylaws for permit requirements in your area.

Residential Building Projects

Most new residential building projects require a building permit. Permit approval is based upon conditions stated in a plan review completed by a Licensed Building Official. If approved, on-site inspections are required at various stages of construction, as listed on the plan review and subsequent inspection reports. For a general summary of these inspections, please see the inside of this brochure.

According to *The Uniform Building and Accessibility Standards Act (UBAS Act)*, Section 7(1) states:

Subject to subsections (2) and (3), the owner of each building in Saskatchewan shall ensure that the building is designed, constructed, erected, placed, altered, repaired, renovated, demolished, relocated, removed, used or occupied in accordance with the building standards.

Owners **must** comply with municipal bylaws, Saskatchewan UBAS Act, and the National Building Code of Canada.

Required On-Site Inspections for Residential Building Projects

Owners/Builders: Please call PBI at (306) 536-1799, or contact your Building Official directly, **at least 48 hours prior to the required inspections listed below**. Failure to do so may result in project delays, additional fees, issuance of affidavits or orders, and/or the removal of materials. All required on-site inspections are listed on the plan review. Unique projects may differ from below.

- Plan Review:** All projects require a Plan Review (PR) by a Licensed Building Official **prior to building permit approval**. (Please allow 2 weeks.)
- Foundation:** Call 48 hours **prior to pouring the concrete foundation** (once the footings, weeping tile, if required, and forms with rebar are in place). For PWF foundations, please call **prior to backfilling**.
- Anchoring:** Inspection is required for the anchoring of the building to the foundation (or to the ground for mobile homes). Please call 48 hours **prior to skirting** the mobile home or **prior to insulating** the RTM basement perimeter walls (or insulating attached garage).
- Framing:** Call 48 hours **prior to insulating** (once the framing is complete and the plumbing, heating and/or electrical wiring is roughed in). For a duplex or multi-unit residential, also call **prior to closing in the party wall** (call *during* construction of the party wall).
- Ins & VB** Call 48 hours **prior to covering the insulation and vapour barrier** with gypsum board or other material. Insulation, air barrier and vapour barrier must meet NBC Sections 9.25. and 9.36. standards for condensation control and energy efficiency.
- Occupancy:** Call 48 hours **prior to occupancy** (before moving in, sleeping overnight, or occupying the living space). If all interior and/or exterior work is not yet completed, a **Final** inspection will be required. (Final inspection may incur an additional cost.)
- Final:** Call **when construction is complete** (all interior and/or exterior work). Project must pass the Final inspection to close the permit.
